

At Chatsworth Products (CPI), it is our mission to address today's critical Information and Communications Technology (ICT) infrastructure and industrial enclosure needs with products and services that protect your ever-growing technology investment. We act as your business partner and are uniquely prepared to respond to your specific requirements with global availability and rapid product customization that will give you a competitive advantage.

Service and Support

We offer highly trained specialists to help solve your ICT infrastructure needs, including on-site consultation services and Computational Fluid Dynamics (CFD) analysis.

Quality Products

Our products deliver reliable, structural support that exceeds customer expectations through innovation, functionality and performance. CPI's facilities meet the strict requirements to be an ISO 9001 certified company.

Breadth of Products and Solutions

CPI delivers innovation, configurability, quality and value with a breadth of integrated system components covering virtually all physical layer needs of today's ICT infrastructure with future-ready capability.

Global Availability

Headquartered in the United States, CPI operates from multiple sites worldwide, including offices in Mexico, Canada, China, United Arab Emirates and the United Kingdom.

Customization and Customer Focus

CPI's engineering and manufacturing model enables flexibility to create and alter products to solve unique problems.

“ I can always count on CPI's quality, fit and function when it comes to managing the different systems that make up today's business technology systems. ”

CPI Data Center Solutions

Achieve high availability, efficiency and scalability

Data centers are becoming more complex, increasing the need for cohesive white space management. The CPI cabinet ecosystem integrates hardware and software into a single platform, giving data center managers the visibility and understanding needed to make informed decisions quickly.

Airflow Management

Rack Power Distribution and Management

Access Control and Regulatory Compliance

Environmental Monitoring

DCIM Software

Advantages

- Unlimited sizes and custom configurators to fit your unique need
- High load ratings support heavy equipment
- Passive Cooling® technology supports cabinet power/heat loads up to 30 kW per cabinet
- Preinstallation and kitting services reduce onsite labor, simplifying deployment
- Reduce cooling costs and increase efficiency
- Improve capacity with device-level power monitoring and control
- Meet regulatory compliance
- Obtain power reporting and trending data
- Suitable for greenfield and brownfield applications

End-To-End Solutions

At the room level, CPI provides a complete portfolio of data center solutions that work with the cabinet ecosystem, providing you with the space optimization and thermal control you need to achieve your data center efficiency and availability goals.

Aisle Containment
Isolating hot and cold air in the room

Wire Cage Enclosures
Securing equipment in shared spaces

Cable Pathway
Connecting equipment in racks

Racks/Cable Management
Managing interconnection

CPI Enterprise Networking Solutions

Ensure reliability, flexibility and speedy deployment

CPI offers all the components and consultation services you need to ensure your premise network will support emerging technologies, increasing densities and future growth.

- A Rack Systems**
Two-Post Universal Rack (shown)
or Adjustable Rail QuadraRack®
- B Cable Pathway**
Adjustable Cable Runway
Tool-less Radius Drop
Pathway Dividers
- C Cable Management**
Motive® Vertical Cable Manager
(includes four tool-less accessories)
 - Accessory Rod
 - Rotating Management Finger
 - Half Spool
 - Cable Bundle Swivel
- D Other Considerations**
Bonding Busbars
Power Management
Seismic Bracing
- E Wall-Mount Systems**
CUBE-iT™ Wall-Mount Cabinet

Advantages

- High-density support with focus on fiber optic cabling and advanced Power over Ethernet (PoE)
- Integrated bonding features protect network and reduces installation time
- Superior cable and cord management optimizes signal quality and network speed
- Tool-less designs adapt to future changes and promotes easy moves, adds and changes
- Highly adjustable cable management and runway simplify installation and maintenance
- Wall-Mount Cabinets protect and secure equipment in areas with limited space inside and outside the telecommunications room

Optimized for office environments

Featured Solutions

Our products feature high-quality construction and design, are easy to install, promote proper cable bend radii and meet ANSI/TIA/EIA standards, BICSI installation guidelines.

Rack Systems

- A – Two-Post Standard Rack
- B – Adjustable Rail Server Rack

Cable Pathway

- C – Adjustable Cable Runway
- D – Universal Cable Runway

Cable Management

- E – Velocity® Cable Management
- F – Motive® Cable Management
- G – Evolution® Cable Management
- H – MCS Master Cabling Section
- I – CCS Combination Cabling Section

Wall-Mount Cabinets

- J – ThinLine II Wall-Mount Cabinet
- K – CUBE-iT Wall-Mount Cabinet
- L – Standard Swing Gate Wall Rack

Grounding and Bonding

- M – Primary and Secondary Busbars

CPI Industrial Solutions

Maintain NEMA protection, cooling and security in harsh environments

CPI offers a full line of NEMA-rated enclosures and accessories so you can expand the network to the Edge and protect valuable automation controls equipment in harsh indoor or outdoor environments.

RMR

Industrial Enclosures

Filter Fans and Cooling Units

Variety of NEMA-rated options to protect the life of your equipment

Mounting Panel Options

Electrical and automation controls applications

Sealing Accessories

- Drain Plug
- Drip Shield
- Snap-In Liquid Tight Grommet
- Assorted Roxtec Grommets

Advantages

- Safely deploy equipment in manufacturing floors, warehouses, residential and commercial centers, 5G micro cells, industrial infrastructure, etc.
- UL Type options, including Type 4, 12, 1, 2, 3R and 5
- Keep dirt and liquid out with robotically applied foam gasket sealed RMR Enclosures
- Secure Edge and Internet of Things (IoT) equipment with IT equipment mounting option
- Customize an enclosure on-demand and order a kitted solution under one part number

On-Demand Configuration

Order a complete, kitted solution under One Part Number with the CPI Product Designer.

Sample Applications

Technology is everywhere, and when you need to store and protect valuable ICT or electronic equipment that will need to reside in dirty, wet environments, rely on CPI's RMR® Industrial Enclosure solutions.

Competitive Lead-Times

Standard products are readily available through a global network of industry-leading distributors. With stock availability, and CPI's consistently short factory lead times, you can be assured that CPI solutions will be accessible to meet your project scheduling needs.

How to Buy

CPI sales are conducted in partnership with a global network of distributors, contractors and resellers to ensure a high level of stock availability. Use CPI's Online Catalog to place an order with a distributor near you. Go to <http://www.chatsworth.com/how-to-buy/> to learn more.

About CPI

CPI, a 100-percent employee-owned company, was founded in June 1991, when 90 workers joined together and purchased the Dracon Division of Harris Corporation using an Employee Stock Ownership Plan (ESOP). Employee ownership is central to the success of CPI. Employee owners are committed to a philosophy of quality through teamwork, caring and commitment, which are extended to customers through our solutions and services.

The CPI Total Solution Includes

- Cabinet, Containment & Enclosure Systems
- Cable Management
- Cable Runway & Tray
- Environmental Monitoring & Security
- Grounding & Bonding
- Industrial Enclosure Systems
- Power Management Products
- Rack Systems
- Wall-Mount Systems
- Zone Cabling & Wiring Enclosures

CPI now offers Extended Limited Warranties on CPI-Branded Electronic products, available for two additional years beyond the expiration of the Original Warranty Period (3 years).
